Penmann
INNOVATIVE CLIMATIC SOLUTIONS FOR THE FOOD INDUSTRY

NR-H20E

NR-H20E Portable Electric Boiler

Product Overview

Versatile – electric boiler suitable for a wide range of different applications – both commercial & industrial

Portable – trolley mounted for easy mobility

Fully packaged – complete with integral circulation pump, expansion tank & pressure relief valve

Digital controller – desired set point can be tailored for the application

Performance Data

Nominal Heating Capacity	11/22 kW
Operating Limits	
Minimum/Maximum Heating Fluid Supply Temperatures	20/80 °C
Minimum/Maximum Heating Fluid Flow Rate	45/58 1/min
Maximum Working Pressure	3.0 bar
Electrical Data	
Power Supply	400/3/50 V/ph/Hz
Power Connection	32 A 5 Pin Plug
Hydraulic Circuit	
Connections	3/4" BSP
Expansion Tank Volume	10 litres
Physical Data	
Length	650 mm
Width	450 mm
Height	1,100 mm
Operating Weight	46 kg
