Penmann
INNOVATIVE CLIMATIC SOLUTIONS FOR THE FOOD INDUSTRY

WLA Precision ERP

ENERGY COST SAVING AND LOWER ENVIRONMENTAL IMPACT High EER achieved with shell & tube evaporator as standard, finned coils condensers with mini-tubes and high efficiency axial fans for lower power absorption and reduction of refrigerant charge, the units are Erp 2021 SEPR HT/MT compliant.

Cooling Capacity

50 - 160 kW

Refrigerant

R410A

Works Everywhere

With our versions for air temperature down to -20°C and outlet water temperature down to -10°C available, IP44/54 protection available.

Non-stop Operation

Designed for 24/7 industrial use with standard safety features and individual testing of all the parts.

Design Flexibility

Available versions for low ambient and low water temperatures, laser version for higher precision, and many more.
